**Course Number:** SSPBRD22A

**Course Title:** Planning for Performance: Rethinking Commercial Restroom & Locker Room Design

**Provider:** Ron Blank & Associates, Inc. | AIA Provider: K066 | 800-248-6364

**Subjects Covered in Course:** (Learning Objectives)

1. Explain how early design decisions influence layout efficiency, accessibility, and overall performance in restroom and locker room environments.
2. Evaluate how applicable codes and standards impact design coordination and compliance.
3. Assess material and design strategies that support durability, maintenance, and long-term performance in high-use spaces.
4. Identify approaches to improving user experience and operational efficiency through thoughtful planning and coordination.

**About the Author/Presenter:**

Daniel Hughes – Senior VDC Manager  
Specifications & ADA Specialist

Mr. Hughes is the Senior VDC Manager at Bradley Company, where he serves as a Specifications and ADA Specialist supporting sales, engineering, product management, marketing, and client care on active design and construction projects. He brings over 20 years of experience as a consultant and trainer for Autodesk Strategic Account clients on U.S. and international projects, as well as prior roles as a designer, project manager, construction manager, and VDC manager for multiple Wisconsin design firms. He also develops and presents accredited continuing-education courses based on his ongoing work with design professionals and active facility projects.
